## Table of Contents

ATL ADAPTER.....	3
UML TOOL ADAPTERS.....	3
UML2 EXAMPLE.....	3

## ATL Adapter

The project contains references to a library from the Eclipse Core plugin. The reference contains the version number. If you use a newer version of Eclipse, you might have to adapt these.

## UML tool adapters

There is currently a problem recognizing Exceptions specified in an Poseidon UML model.

## UML2 example

Due to an incompatibility in UML2 primitive types, the UML2 example currently does not work.

## About our Sponsors

**itemis GmbH & Co. KG** is an independent IT service company with an emphasis on consulting, coaching, and software development. Every single itemis expert provides many years of project experience and widespread knowledge about all object oriented and component based software development issues - especially in the field of model driven software development.

**b+m** is the founder of the openArchitectureWare project. The software was originally developed within the scope of many successful projects. b+m opened the software to the community in late 2003. All of the paradigms of Model-Driven Software Development including Product Line Engineering and not only the generator framework have become a key concept for product and customer specific development at b+m. b+m customers can make use of long time experience and substantial know-how in that field. Located at the company headquarters in Melsdorf/Kiel and at its subsidiaries in Berlin, Cottbus, Hamburg, Hanover and Kiel the b+m staff of 205 provides practical solutions for customized business applications, business process optimization and comprehensive architecture, project and quality management.

**oose Innovative Informatik GmbH** offers coaching, consulting and training in all themes about software engineering. The main focus of their activities are software architecture, requirements engineering and project-management. oose have first-hand information and experience, because our staff take actively part with others in actual trends, standards and innovations. Our staff support this and pass their know-how regularly on by writing and publishing books or being speaker at conferences, etc. Within the OMG oose collaborate actively on the specifications of the UML and also the SysML.

**MID Enterprise Software Solutions GmbH** is a leading supplier of optimized tool environments for standardsbased and model-centric software development as well as business process modeling. This includes professional tool consulting and tool components to build a complete tool environment using the best techniques and tool modules available - Architectural and Operational Excellence. With innovatorAOX, MID provides a holistic standard tool environment for object- and function-oriented software development as well as business process and data modeling to help its customers establish highly efficient processes and tool environments for software production, The unique and seamless integration of business process modeling into the development process ensures an unprecedented level of convergence of business requirements and implemented IT systems. Project members from all departments speak the same language and all requirements are clearly described.
